

Bring BACCHUS Expertise to Your Campus

Looking to improve your comprehensive prevention programming and need some ideas on how to do it? BACCHUS can help. The BACCHUS Network™ is offering staff facilitated trainings. Take advantage of these affordable opportunities to bring BACCHUS expertise to your campus. Prices range from \$1000 for half-day consultation to \$2500 for a day-and-half training and includes travel.

Campus Site Visit & Consultation

BACCHUS will send a senior staff member on a site visit to consult with you, your chief student affairs officer, your students, your campus or community task force, and other key stakeholders to assess program strengths and suggest ways to improve prevention efforts. This structured visit will include a follow up report to assist you with future strategic planning, writing for grants, and budget development.

Screening and Brief Intervention (SBI) Training for Student Life Staff

Screening and Brief Intervention (SBI) has emerged as an effective tool to reduce college alcohol abuse. This training provides a brief screening tool and incorporates motivational interviewing techniques to assist student life staff in having intentional conversations with students. Participants will leave with tools for implementing SBI and resources for assisting students to consider a behavior change.

Certified Peer Educator (CPE) Training

Does the idea of bringing in our national trainer to conduct BACCHUS CPE Training for your campus sound appealing? You can utilize the convenient and affordable option of having The BACCHUS Network™ come to your campus and conduct the training. A BACCHUS staff member will work with you every step of the way to plan the CPE training. The independently evaluated CPE program has increased knowledge, confidence and skills in peer educators completing the training. For less than the cost of many national speakers who present for an hour, you can have a twelve-hour training that empowers your students to commit to healthy and safe lifestyle choices.

Tobacco Cessation Program Training

Tobacco cessation for young adults is a challenging piece of the campus tobacco control puzzle. BACCHUS staff members have expertise in providing cessation efforts on campus. A full-day training includes the top 10 list of campus cessation efforts including: assessment; empathy for addiction; Stages of Change; working with health and counseling centers; medications; cessation groups; technology; targeted promotion; events; staff involvement; and national resources. Participants will leave with strategies for implementing a comprehensive cessation program on campus.

For more information on fees and scheduling, please contact Ann Quinn-Zobeck, Director of Education and Training, at ann@bacchusnetwork.org or 303-871-0901.
